Subject: FW: Chemours WV permit

Please take a look at Region 4's comments/recommendations on the Washington Works draft permit. Follow-up with Karrie-Jo if you have any questions. We should consider adding these comments to our response back to WVDEP on our draft permit review.

Thanks,
Brian

Subject: Chemours WV permit

Brian and Julie,
When Region 3 sent us the Chemours NPDES permit for their WV facility, you didn't ask us to review it but since we wanted NC to see what WV was proposing we wanted to ensure that we didn't have any concerns. I asked Karrie-Jo Shell to look at the permit as she has been actively providing technical support to NC on the issues with the Chemours facility in their state. Please see the comments below on the draft WV permit. Brian, if your staff wants to talk to Karrie-Jo about these comments please have them call her at 404-562-9308 or shell.karrie-jo@epa.gov. Thanks! Molly
